# CHAIRMAN'S STATEMENT

**On behalf of the Board of Directors of Hiap Teck Venture Berhad (“HTVB”), I am pleased to present the annual results of the Company and its subsidiaries for the financial year ended 31 July 2014.**

---

## OPERATING ENVIRONMENT

In the past two years, the continuing Euro-zone difficulties, slow growth in developed economies and a cooling of emerging economies took a toll on the steel industry. Despite economic conditions, the global steel industry remains uncertain and challenging, steel demand recovery continues but growth is stabilizing at a lower rate. Steel prices in most regions, remained low and are likely to be price-elastic.

In the local front, the influx of imports remains the greatest challenge for the Malaysian steel industry. The strong growth of 6.2% of the Malaysian economy for the first quarter of 2014 and a 4.7% growth in 2013, coupled with the government spending on projects under the 10<sup>th</sup> Malaysia Plan and other private projects, had eased the challenges faced by the industry. However, the Government's national policies on steel industry, volatility in foreign exchange market and the development of the steel industry in the region are impacting the performance of the local steel industry.

### FINANCIAL PERFORMANCE

Despite such a challenging business environment, once again, the Group posted an improved performance compared to the previous financial year.

The Group's revenue of RM1.110 billion for FY 2014 was comparable to the RM1.107 billion revenue registered in the preceding financial year. However, profit before tax of the Group improved from RM34.2 million in FY 2013 to RM49.9 million for the financial year ended 31 July 2014. Profit after tax rose from RM24.3 million previously to RM45.6 million.

The performance improvement was the result of operational efficiency. The Group has taken various measures to achieve operational excellence, enhancing inventory and receivable management, increase productivity and efficiency while keeping a tight control on cost and expenses.

Manufacturing Division remained the key contributor to the Group's profit. Pipe making division contributed RM28.5 million, representing 63% of the Group's net profit (FY 2013 : 43%). Higher production volume coupled with tighter cost control and increased efficiency, resulted in a lower production cost and better margin. Both Scaffolding and Trading Division accounted for 12% & 11% respectively of the Group's net profit (FY 2013 : 34% and 19% respectively).

### DIVIDENDS

The Board of Directors is pleased to recommend for shareholders' approval at the forthcoming Annual General Meeting ("AGM"), a single tier final dividend of 0.6 sen per share for the financial year ended 31 July 2014. If approved by the shareholders at the AGM on 17 December 2014, the final dividend will be paid on 13 February 2015.

### CORPORATE DEVELOPMENT

In recognising the role of the employees in the development of the company and to inculcate a sense of belonging amongst the employees, the Company has in FY 2013 offered a total number of 48,800,000 options to its eligible directors and employees under its Employees' Share Options Scheme at an Exercise Price of RM0.50 per HTVB share. In Jan 2014, a second offer of options for a total of 11,020,000 options has been offered to new eligible directors and employees and additional offers to members of the Senior Management based on their performance and level of responsibilities. The Exercise Price for the second tranche of options is RM0.67 per HTVB shares.

# CHAIRMAN'S STATEMENT

(Cont'd)

The Company's investment in an integrated steel mill in Teluk Kalung Industrial Estate, Kemaman, Terengganu, a joint-venture project with China Shougang International Trade and Engineering Corporation is progressing and is expected to complete before the end of 2014.

The Company's wholly-owned subsidiaries, Hiap Teck Resources Sdn. Bhd. (formerly known as Hiap Teck Management Services Sdn. Bhd.) had on 18 September 2014 entered into a Subscription Agreement with Vista Mining Sdn. Bhd. for the subscription of 550,000 new ordinary shares representing 55% of the enlarged issued and paid up share capital of Vista Mining Sdn. Bhd.. Vista Mining Sdn. Bhd. is principally engaged in the mining practices particularly in iron ore exploration, mining and processing operations, and is presently the Approved Contractor by Jabatan Mineral Dan Geosains Malaysia, Terengganu for Lot 110549 Mukim Jerangau, Dungun and Lot 60020 Mukim Besul, Dungun. The subscription of shares in Vista Mining Sdn. Bhd. marked the Group's foray into mining business aimed at transforming the Group into a fully integrated Steel Player in the country with mining, upstream and downstream activities.

## PROSPECTS

The recovery in Europe is still mild and constrained by high debt and unemployment. Structural problems in the emerging economies are less likely to be resolved in the short term leaving them fragile and susceptible to external shocks. China's steel usage is expected to lose steam due to the government's ongoing attempt to restructure the economy to a services and consumers-driven economic. These factors will prevent the broad recovery momentum from registering a higher global steel demand growth rate. In short, the global steel demand is expected to recover at a slower pace with continued volatility and uncertainty leading to a challenging environment for steel companies.

At our home base, Malaysia, the Government continues to review policies and regulations in order to promote the local steel industry. Together with Government's spending under the Economic Transformation Programme, Tenth Malaysia Plan (2011-2015) and robust demand for properties in key growth areas, we do however foresee that the local steel industry will see modest improvement.

Nonetheless, the Group's key focus will be to continuously review our core strategies to improve the cost, quality and delivery of our products as well as overall operational efficiencies in pushing the Group to the fore front of the industry.

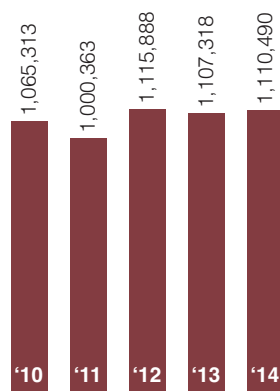

## ACKNOWLEDGEMENT

On behalf of the Board, I would like to express my appreciation to our valued shareholders, customers, suppliers and business associates for their unwavering support over the years. My sincere gratitude also goes to my fellow colleagues on the Board, management and staff whose commitment and hard work continue to strengthen the Group's businesses.

# STATEMENT ON CORPORATE GOVERNANCE

The Board of Hiap Teck Venture Berhad (“HTVB”) fully supports the recommendations of the Malaysian Code on Corporate Governance 2012 (“Code”) issued by the Securities Commission and Bursa Malaysia Securities Berhad (“BMSB”) which sets out the broad principles and recommendations for good corporate governance and best practices for listed companies.

The Board is committed to apply the recommendations of the Code in ensuring and maintaining that good corporate governance is practised throughout the Group to effectively discharge its responsibilities to protect and enhance shareholders’ value and those of the other stakeholders.

The Board of Directors is, therefore, pleased to report that this statement sets out the extent of the Group’s compliance with the recommendations of the Code for the financial year ended 31 July 2014. Where there are gaps in the Company’s observation of any of the recommendations of the Code, these are disclosed with explanations.

## A. BOARD OF DIRECTORS

### Board Charter and Board Responsibilities

Emphasising its commitment to good corporate governance practices of the Code, the Board has during the financial year formalised and adopted a Board Charter that sets out, amongst others, the responsibilities, authorities, procedures, evaluations and structures of the Board and Board Committees, as well as the relationship between the Board with management and the shareholders of the Company. During the financial year, the Board has also formalised and adopted a Code of Ethics and Conduct for Directors in line with the recommendation of the Code.

The Board Charter and Code of Ethics and Conduct for Directors may be viewed at the Company’s website at [www.htgrp.com.my](http://www.htgrp.com.my).

The Board is primarily responsible for determining the strategic direction of the Group, monitoring and overseeing the performance of the Group’s business. The Board members meet regularly to review corporate strategies, operations and the performance of business segments and bring to bear independent judgment on issues of strategy, performance, resources, governance and code of conduct and ethics to ensure that decisions made and actions taken will promote sustainability of the Group. The Board as a whole is dedicated to practise clear demarcation of duties, responsibilities and authority within the Company.

### Sustainability

The Board recognises the importance of sustainability and its increasing significance in the business. The Board is committed to understanding and implementing sustainable practices and to exploring the benefits to the business whilst attempting to achieve the right balance between the needs of the wider community, the requirements of shareholders and stakeholders and economic success.

In transition to implement the Code, the Company will consider formalising a Sustainability Policy which aims to endeavour to integrate the principles of sustainability into the Company’s strategies, policies and procedures and ensure that the Board and senior management are involved in implementation of this policy, review the sustainability performance and create a culture of sustainability within the Company, and the community, with an emphasis on integrating the environmental, social and governance considerations into decision making and the delivery of outcomes.

# STATEMENT ON CORPORATE GOVERNANCE

(Cont'd)

## Board Balance

The Board comprises nine (9) Directors of whom one (1) is Independent Non-Executive Chairman, one (1) is Executive Deputy Chairman, three (3) are Executive Directors, one (1) is Non-Independent Non-Executive Director and three (3) are Independent Non-Executive Directors. Therefore, the Board is in compliance with Paragraph 15.02 of the Main Market Listing Requirements ("MMLR") of BMSB, which requires that at least one-third (1/3) of the Board comprises Independent Directors. A brief profile of the Board members are set out in pages 4 to 9 of this Annual Report.

The Company is led and managed by an experienced Board comprising members with a wide range of qualifications, knowledge and experience in the relevant fields such as finance, accounting, metallurgy, material science, management, economics, corporate affairs, entrepreneurship and management. Collectively, the Directors bring a broad range of skills, expertise, knowledge and independent judgment to successfully direct and supervise the attainment of the Group's corporate strategy and business.

## Separation of positions of Independent Non-Executive Chairman and Executive Deputy Chairman

There is a clear demarcation of responsibilities and roles between the Independent Non-Executive Chairman and the Executive Deputy Chairman to ensure the balance of power and authority. The positions of Non-Executive Chairman and Executive Deputy Chairman are held by different individuals. The Chairman's main responsibility is to ensure effective conduct of the Board and Board meetings and unrestricted and timely access by all Directors to all relevant information necessary for decision making. The Chairman leads the oversight of the management to ensure integrity and effectiveness of the governance process and leads the discussion on strategies and policies recommended by the Management. The Executive Deputy Chairman provides executive leadership and is assisted by the three (3) Executive Directors who are responsible for the implementation of the Board's policies and decisions as well as supervising the operation of the Group and the development and implementation of business strategies.

The Independent Directors as defined under Paragraph 1.01 of BMSB's MMLR are independent of management and are free from any business or other relationships that could interfere with the exercise of their independent judgment or the ability to act in the best interests of the Company. The roles of Independent Directors are particularly important in bringing independent judgment to bear on issues of strategy, performance, resources and standards of conduct.

## Annual Assessment of Independent Directors

The Independent Directors play a key role in corporate accountability and provide unbiased views and impartiality to the Board's deliberation and decision making process. In addition, the Independent Directors ensure that matters and issues brought to the Board are given due consideration, fully discussed and examined, taking into account the interest of all stakeholders in the Group.

The assessment on independence of the Directors based on the provisions of the MMLR covers a series of objective tests and is carried out before the appointment of the Independent Directors. Further, the Board with assistance from the Nomination Committee will undertake to carry out annual assessment of the effectiveness of the Board as a whole, including Independent Non-Executive Directors and consider whether the Independent Director can continue to bring independent and objective judgment to the Board deliberations.

Any Director who considers that he has or may have a conflict of interest or a material personal interest or a direct or indirect interest or relationship that could reasonably be considered to influence in a material way the Director's decisions in any matter concerning to the Company is required to immediately disclose to the Board and to abstain from participating in any discussion or voting on the respective matter.

For the financial year ended 31 July 2014, the Board assessed the independence of its Independent Non-Executive Directors based on the criteria set out in the MMLR of BMSB. The Board is satisfied with the level of independence demonstrated by all the Independent Directors and their ability to act in the best interest of the Company. All the Independent Directors have given written confirmation declaring their independence to the Board.

# STATEMENT OF DIRECTORS' RESPONSIBILITY IN RELATION TO THE FINANCIAL STATEMENTS

The Board of Directors is required to prepare the financial statements for each financial year which give a true and fair view of the state of affairs of the Group and of the Company at the end of the financial year, and of the results and cash flow of the Group and of the Company for the year then ended.

The Directors, in preparing the financial statements, have adopted and applied consistently suitable accounting policies and made judgments and estimates that are reasonable and prudent. The Directors also ensured that all applicable financial reporting standards have been followed and the financial statements are prepared on a going concern basis as the Directors have reasonable expectation, having made enquiries that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future.

The Directors have a general responsibility for taking such steps as are reasonably available to them to safeguard the assets of the Group to prevent and detect fraud and other irregularities.

This Statement is made in accordance with a resolution of the Board of Directors dated 31 October 2014.

# STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

The Board of Directors ("the Board") is pleased to present its Statement on Risk Management and Internal Control for the financial year ended 31 July 2014. This Statement is prepared pursuant to paragraph 15.26(b) of the Main Market Listing Requirements and guided by the latest "Statement on Risk Management and Internal Control – Guidelines for Directors of Listed Issuers" ("the Guideline") endorsed by the Bursa Malaysia Securities Berhad.

## Board's Responsibility

The Board acknowledges that risk management and systems of internal control are integral parts of corporate governance and believes that Board's risk oversight is critical to set the right tone and culture towards effective risk management and internal control in the Group.

Principally, the responsibilities of the Board as provided in the Guideline for risk governance are:

- To embed risk management in all aspects of the Group's activities, which also encompasses subsidiaries of the Company; and
- To review risk management framework, processes, responsibilities and assessing whether the present policies and systems provide reasonable assurance that risk is managed appropriately.

The Board understands the principal risks of the business that the Group is engaged in and accepts that business decisions require the balancing of risk and return in order to reward the shareholders.

The Board has established its Risk Management Committee ("RMC"). The key function of RMC is to review and report to the Board the risks faced by the Group and the effectiveness of management measures in identification and assessment of risks as well as the design, management and monitoring of internal controls to mitigate risks.

The present composition of the RMC is as follows:

- (i) Mr. Leow Hoi Loong @ Liow Hoi Loong - Independent Non-Executive Director/Chairman of RMC
- (ii) Mr. Lee Ching Kion - Independent Non-Executive Director
- (iii) Mr. Foo Kok Siew - Executive Director

The RMC meets at least once every quarter and on other occasions, as and when necessary.

# STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

(Cont'd)

## Risk Management

The risk profiles of the Group and industry are similar with the previous year. The key macro and micro risks of steel industry are fluctuation of steel prices and foreign currency, changes in global and local economic conditions, changes in local and overseas government policies, anti-dumping pressures as well as trade competitions, supply of labour, credit risk or risk of default by customers, high working capital holding cost, risk of funding and financing, plant interruption and monopoly of raw material supply.

In addition, the Group faces contemporary risks arising from its expansion plan. Primarily, these contemporary risks come from the challenges of funding and managing the cost of construction and deadline for completion. The incidental risks of these challenges are changes of availability of sources of fund, interest rates, construction material costs, weather condition, labour supply, site and safety conditions, machinery deployment, contractors performance and natural disaster.

Functionally, RMC is assisted by the Risk Management Working Committee ("RMWC"). The objectives of RMWC are to identify, measure and prioritise risks and to ensure that adequate attention and focus for risk management are placed appropriately and timely in accordance with the perceived and anticipated risk magnitude. Quarterly, the RMWC re-assesses, summarises and reports the emerging risks and its profiles to the RMC for review and deliberation. The status of key risks and management actions are further presented to the Board for review and deliberation by RMC.

## Board and Management Review Mechanism

Whilst the risk management is overseen by the RMC and RMWC, at the operational level, various management review meetings are held. Presently, the management organizes weekly Senior Management Meeting, monthly Group Management Committee Meeting and monthly operation meetings at the respective key subsidiaries. The objective of these meetings is to ensure policies, decisions and expected operational performance targets and objectives set by the top executives are communicated, understood and executed by line management. At the same time, these meetings re-enforce the monitoring and supervision controls at the line management levels.

In order to ensure the objectivity of the review of the systems of internal control in the Group, the Audit Committee is instituted by the Board to undertake this role. In conducting its review, the Audit Committee is assisted by the Internal Auditors who report to the Audit Committee quarterly on the state of control of the audited functions. Additionally, the Audit Committee obtains feedback from the External Auditors on the risk and control issues highlighted by them in the course of their statutory audit.

Management supplements the Audit Committee review on risk issues when presenting their quarterly financial performance and results to the Audit Committee. In addition, with the management consultation, the Audit Committee deliberates the integrity of the financial results, annual report and audited financial statements before recommending to the Board to be presented to the shareholders and public investors.

# STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

(Cont'd)

## Key Elements of Internal Control

Apart from the above, the other key internal controls processes practised in the Group presently are as follows:

- i. The Purchasing Committee that reviews, monitor and approves purchases;
- ii. Budgetary control involving the review and approval of annual budget for the new financial year;
- iii. Organisation structure that defines the management responsibilities and its hierarchy structure of reporting lines and accountability;
- iv. Authority limits and approval processes that facilitate the delegation of authority and management succession;
- v. Centralized enterprise resource planning information system that provides on-line information and produces periodic performance reports to management for monitoring purposes; and
- vi. ISO 9001:2008 Quality Management System, EC Certification on Factory Production Control and American Petroleum Institutes ("API") manufacturing procedures in the manufacturing operations of the Group. Internal quality audits are carried out and annual surveillance audits are conducted by external certification body to provide assurance of compliance with the ISO requirements.

## MANAGEMENT RESPONSIBILITIES AND ASSURANCE

In accordance to the Bursa's Guidelines, management is responsible to the Board for:

- identifying risks relevant to the business of the Group's objectives and strategies implementation;
- designing, implementing and monitoring the risk management framework in accordance with the Group's strategic vision and overall risk appetite; and
- identifying changes to risk or emerging risks, taking action as appropriate and promptly bringing these to the attention of the Board.

Before producing this Statement, the Board has received assurance from Executive Director and Chief Financial Officer that, to the best of their knowledge that the Group's risk management and internal control systems are operating adequately and effectively, in all material aspects.

## BOARD ASSURANCE AND LIMITATION

The Board confirms that there is an ongoing process for identifying, evaluating and managing significant risks faced by the Group. For the financial year under review, the Board is satisfied that the existing level of systems of internal control and risk management are effective to enable the Group to achieve its business objectives and there were no material losses resulted from significant control weaknesses.

While, the Board wishes to reiterate that risk management and systems of internal control would be continuously improved in line with the evolving business development, it should be noted that all risk management systems and systems of internal control could only manage rather than eliminate risks of failure to achieve business objectives. Therefore, these systems of internal control and risk management in the Group can only provide reasonable but not absolute assurance against material misstatements, frauds and losses.

# DIRECTORS' REPORT

(Cont'd)

## Directors' benefits

Since the end of the previous financial year, no Director of the Company has received nor become entitled to receive any benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by Directors as disclosed in Note 18 to the financial statements or the fixed salary of a full time employee of the Company or of the related corporations) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest except as disclosed in Note 29.

There were no arrangements during and at the end of the financial year which had the object of enabling Directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

## Issue of shares and debentures

During the financial year, the Company issued:

- 4,212,000 new ordinary shares of RM0.50 each for cash arising from the exercise of the employees' shares options at a weighted average price of RM0.50 per ordinary share; and
- 2,733 new ordinary shares of RM0.50 each for cash arising from the exercise of the warrants at a weighted average price of RM0.69 per ordinary share.

There were no other changes in the authorised, issued, and paid-up capital of the Company during the financial year.

## Treasury shares

During the financial year, the Company repurchased 1,000 of its issued ordinary shares from the open market at an average price of approximately RM0.80 per share. The total consideration paid for the repurchases including transaction costs was RM796.

The shares repurchased are being held as treasury shares in accordance with Section 67A of the Companies Act, 1965 and further relevant details are disclosed in Note 12 to the financial statements.

## Options granted over unissued shares

No options were granted to any person to take up unissued shares of the Company during the financial year apart from the issue of options pursuant to the Employees Share Option Scheme ("ESOS") which governed by ESOS By-Laws.

At an extraordinary general meeting held on 23 November 2011, the Company's shareholders approved the establishment of ESOS to eligible Directors and employees of the Group.

The salient terms of the ESOS are disclosed in Note 30 to the financial statements.

The options offered to take up unissued ordinary shares of RM0.50 each and the exercise prices are as follows:

Date of offer	Exercise price	No. of share options over ordinary shares of RM0.50 each				
		At 1.8.2013	Granted	Exercised	Forfeited	At 31.7.2014
19 April 2013	RM0.50	46,530,000	-	(4,212,000)	(1,825,000)	40,493,000
10 January 2014	RM0.67	-	11,020,000	-	(990,000)	10,030,000
		46,530,000	11,020,000	(4,212,000)	(2,815,000)	50,523,000

The Company has been granted an exemption by the Companies Commission of Malaysia from having to disclose in this report the names and details of holdings of persons to whom have been granted not more than 1,300,000 options as required by Section 169(11) of the Companies Act, 1965. This information has been separately filed with the Companies Commission of Malaysia.

## Other statutory information

Before the financial statements of the Group and of the Company were made out, the Directors took reasonable steps to ascertain that:

- i) all known bad debts have been written off and adequate provision made for doubtful debts, and
- ii) any current assets which were unlikely to be realised in the ordinary course of business have been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- i) that would render the amount written off for bad debts, or the amount of the provision for doubtful debts, in the Group and in the Company inadequate to any substantial extent, or
- ii) that would render the value attributed to the current assets in the financial statements of the Group and of the Company misleading, or
- iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate, or
- iv) not otherwise dealt with in this report or the financial statements, that would render any amount stated in the financial statements of the Group and of the Company misleading.

### Other statutory information *(Cont'd)*

At the date of this report, there does not exist:

- i) any charge on the assets of the Group or of the Company that has arisen since the end of the financial year and which secures the liabilities of any other person, or
- ii) any contingent liability in respect of the Group or of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of any company in the Group has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

In the opinion of the Directors, except for those disclosed in the financial statements, the financial performance of the Group and of the Company for the financial year ended 31 July 2014 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

### Subsequent event

The details of the subsequent event are disclosed in Note 31 to the financial statements.

### Auditors

The auditors, Messrs KPMG, have indicated their willingness to accept re-appointment.

Signed on behalf of the Board of Directors in accordance with a resolution of the Directors:

Selangor Darul Ehsan

The consolidated financial statements of the Company as at and for the financial year ended 31 July 2014 comprise the Company and its subsidiaries (together referred to as the “Group” and individually referred to as “Group entities”) and the Group’s interest in joint venture. The financial statements of the Company as at and for the financial year ended 31 July 2014 do not include other entities.

The Company is principally engaged in investment and property holdings and the provision of management services, whilst the principal activities of the subsidiaries are as stated in Note 5 to the financial statements. There has been no significant change in the nature of the principal activities during the financial year.

These financial statements were authorised for issue by the Board of Directors on 31 October 2014.

## **1. Basis of preparation**

### **(a) Statement of compliance**

The financial statements of the Group and the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRSs”), International Financial Reporting Standards and the Companies Act, 1965 in Malaysia.

The following are accounting standards, amendments and interpretations of the MFRS framework that have been issued by the Malaysian Accounting Standards Board (“MASB”) but have not been adopted by the Group and the Company:

#### ***MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2014***

- Amendments to MFRS 7, *Financial Instruments: Disclosures – Mandatory Effective Date of MFRS 9 and Transition Disclosures*

The Company plans to apply the abovementioned standards, amendments and interpretations, where applicable:

- from the annual period beginning on 1 August 2014 for those standards, amendments or interpretations that are effective for annual periods beginning on or after 1 January 2014 and 1 July 2014;
- from the annual period beginning on 1 August 2016 for those accounting standards, amendments or interpretation that are effective for annual periods beginning on or after 1 January 2016; and
- from the annual period beginning on 1 August 2017 for those accounting standards, amendments or interpretation that are effective for annual periods beginning on or after 1 January 2017.

The initial application of the above standards, amendments and interpretations is not expected to have any material financial impacts to the current and prior periods financial statements upon their first adoption.

#### (b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 2.

#### (c) Functional and presentation currency

These financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional currency. All financial information is presented in RM and has been rounded to the nearest thousand, unless otherwise stated.

### 1. Basis of preparation (Cont'd)

#### (d) Use of estimates and judgements

The preparation of the financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements other than those disclosed in the following notes:

- Note 8 - Recognition of deferred tax assets
- Note 28 - Contingent liabilities

### 2. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, unless otherwise stated.

#### (a) Basis of consolidation

##### (i) Subsidiaries

Subsidiaries are entities, including structured entities, controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The Group adopted MFRS 10, *Consolidated Financial Statements* in the current financial year. This resulted in changes to the following policies:

- Control exists when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. In the previous financial years, control exists when the Group has the ability to exercise its power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.
- Potential voting rights are considered when assessing control only when such rights are substantive. In the previous financial years, potential voting rights are considered when assessing control when such rights are presently exercisable.
- The Group considers it has de facto power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return. In the previous financial years, the Group did not consider de facto power in its assessment of control.

The change in accounting policy has been made retrospectively and in accordance with the transitional provision of MFRS 10. The adoption of MFRS 10 has no significant impact to the financial statements of the Group.

Investments in subsidiaries are measured in the Company's statement of financial position at cost less any impairment losses, unless the investment is classified as held for sale.

The accounting policies of subsidiaries are changed when necessary to align them with the policies adopted by the Group.

# NOTES TO THE FINANCIAL STATEMENTS

## (Cont'd)

### 2. Significant accounting policies (Cont'd)

#### (a) Basis of consolidation (Cont'd)

##### (ii) Accounting for business combinations

Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group.

For new acquisition, the Group measures the cost of goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

##### (iii) Loss of control

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the former subsidiary, any non-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the former subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

##### (iv) Joint arrangements

Joint arrangements are arrangements of which the Group has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements' returns.

The Group adopted MFRS 11, *Joint Arrangements* in the current financial year. As a result, joint arrangements are classified and accounted for as follows:

- A joint arrangement is classified as "joint operation" when the Group or the Company has rights to the assets and obligations for the liabilities relating to an arrangement. The Group and the Company account for each of its share of the assets, liabilities and transactions, including its share of those held or incurred jointly with the other investors, in relation to the joint operation.
- A joint arrangement is classified as "joint venture" when the Group has rights only to the net assets of the arrangements. The Group accounts for its interest in the joint venture using the equity method.

# NOTES TO THE FINANCIAL STATEMENTS

## (Cont'd)

### 2. Significant accounting policies (Cont'd)

#### (a) Basis of consolidation (Cont'd)

##### (iv) Joint arrangements (Cont'd)

In the previous financial years, joint arrangements were classified and accounted for as follows:

- For jointly controlled entity, the Group accounted for its interest using the equity method.
- For jointly controlled asset or jointly controlled operation, the Group and the Company accounted for each its share of the assets, liabilities and transactions, including its share of those held or incurred jointly with the other investors.

The change in accounting policy has been made retrospectively and in accordance with the transitional provision of MFRS 11. The adoption of MFRS 11 has no significant impact to the financial statements of the Group. Joint ventures are those entities over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions.

Joint ventures are accounted for in the consolidated financial statements using the equity method unless it is classified as held for sale (or included in a disposal group that is classified as held for sale). The consolidated financial statements include the Group's share of the income and expenses of the equity accounted joint ventures, after adjustments to align the accounting policies with those of the Group, from the date that joint control commences until the date that joint control ceases. When the Group's share of losses exceeds its interest in an equity accounted joint venture, the carrying amount of that interest (including any long-term investments) is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the joint venture.

Investments in joint ventures are stated in the Company's statement of financial position at cost less impairment losses.

##### (v) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

Unrealised gains arising from transactions with equity-accounted investees and joint ventures are eliminated against the investment to the extent of the Group's interest in the investees. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

### (b) Foreign currency

#### (i) Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at historical cost are translated using the exchange rate as at the dates of the initial transactions. Non-monetary items denominated in foreign currencies measured at fair value are translated using the exchange rates at the date when the fair value was determined.

Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments or a financial instrument designated as a hedge of currency risk, which are recognised in other comprehensive income.

#### (ii) Operations denominated in functional currencies other than Ringgit Malaysia

The assets and liabilities of operations denominated in functional currencies other than RM are translated to RM at exchange rates at the end of the reporting period. The income and expenses of foreign operations, excluding foreign operations in hyperinflationary economies, are translated to RM at exchange rates at the dates of the transactions.

Foreign currency differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve ("FCTR") in equity. However, if the operation is a non-wholly-owned subsidiary, then the relevant proportionate share of the translation difference is allocated to the non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the FCTR related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal.

When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

In the consolidated financial statements, when settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and are presented in the FCTR within equity.

### (c) Financial instruments

#### (i) Initial recognition and measurement

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Group or the Company becomes a party to the contractual provisions of the instrument.

A financial instrument is recognised initially, at its fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial instrument.

An embedded derivative is recognised separately from the host contract and accounted for as a derivative if, and only if, it is not closely related to the economic characteristics and risks of the host contract and the host contract is not categorised at fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

#### (c) Financial instruments (Cont'd)

##### (ii) Financial instrument categories and subsequent measurement

The Group and the Company categorise financial instruments as follows:

##### **Financial assets**

##### **(a) Financial assets at fair value through profit or loss**

Fair value through profit or loss category comprises financial assets that are held for trading, including derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument) or financial assets that are specifically designated into this category upon initial recognition.

Derivatives that are linked to and must be settled by delivery of unquoted equity instruments whose fair values cannot be reliably measured are measured at cost.

Other financial assets categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

##### **(b) Loans and receivables**

Loans and receivables category comprises trade and other receivables and cash and cash equivalents.

Financial assets categorised as loans and receivables are subsequently measured at amortised cost using the effective interest method.

##### **(c) Available-for-sale financial assets**

Available-for-sale category comprises investment in equity and debt securities instruments that are not held for trading.

Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost. Other financial assets categorised as available-for-sale are subsequently measured at their fair values with the gain or loss recognised in other comprehensive income, except for impairment losses, foreign exchange gains and losses arising from monetary items and gains and losses of hedged items attributable to hedge risks of fair value hedges which are recognised in profit or loss. On derecognition, the cumulative gain or loss recognised in other comprehensive income is reclassified from equity into profit or loss. Interest calculated for a debt instrument using the effective interest method is recognised in profit or loss.

All financial assets, except for those measured at fair value through profit or loss, are subject to review for impairment (see Note 2(i)(i)).

# NOTES TO THE FINANCIAL STATEMENTS

## (Cont'd)

### 2. Significant accounting policies (Cont'd)

#### (c) Financial instruments (Cont'd)

##### **Financial liabilities**

All financial liabilities are subsequently measured at amortised cost other than those categorised as fair value through profit or loss.

Fair value through profit or loss category comprises financial liabilities that are held for trading, derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument) or financial liabilities that are specifically designated into this category upon initial recognition.

Derivatives that are linked to and must be settled by delivery of equity instruments that do not have a quoted price in an active market for identical instruments whose fair values otherwise cannot be reliably measured are measured at cost.

Other financial liabilities categorised as fair value through profit or loss are subsequently measured at their fair values with the gain or loss recognised in profit or loss.

##### **(iii) Financial guarantee contracts**

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Fair value arising from financial guarantee contracts are classified as deferred income and is amortised to profit or loss using a straight-line method over the contractual period or, when there is no specific contractual period, recognised in profit or loss upon discharge of the guarantee. When settlement of a financial guarantee contract becomes probable, an estimate of the obligation is made. If the carrying value of the financial guarantee contract is lower than the obligation, the carrying value is adjusted to the obligation amount and accounted for as a provision.

##### **(iv) Derecognition**

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

# NOTES TO THE FINANCIAL STATEMENTS

(Cont'd)

## 2. Significant accounting policies (Cont'd)

### (d) Property, plant and equipment

#### (i) Recognition and measurement

Items of property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets also includes the cost of materials and direct labour. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs.

The cost of property, plant and equipment recognised as a result of a business combination is based on fair value at acquisition date. The fair value of property is the estimated amount for which a property could be exchanged between knowledgeable willing parties in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The fair value of other items of plant and equipment is based on the quoted market prices for similar items when available and replacement cost when appropriate.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and is recognised net within "other operating income" and "other operating expenses" respectively in profit or loss.

#### (ii) Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group or the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised to profit or loss. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

#### (iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed. If a component has a useful life that is different from the remainder of the asset, then that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Freehold land is not depreciated. Property, plant and equipment under construction are not depreciated until the assets are ready for their intended use.

# NOTES TO THE FINANCIAL STATEMENTS

(Cont'd)

## 2. Significant accounting policies (Cont'd)

### (d) Property, plant and equipment (Cont'd)

#### (iii) Depreciation (Cont'd)

The estimated useful lives for the current and comparative periods are as follows:

• Leasehold land	60 years
• Buildings	50 years
• Plant and machinery	5 - 12 years
• Motor vehicles	5 years
• Other assets	3 - 10 years

Depreciation methods, useful lives and residual values are reviewed at the end of the reporting period, and adjusted as appropriate.

### (e) Leased assets

#### (i) Finance lease

Leases in terms of which the Group or the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. On initial recognition of the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Leasehold land which in substance is a finance lease is classified as property, plant and equipment or as investment property if held to earn rental income or for capital appreciation or for both.

#### (ii) Operating lease

Leases, where the Group or the Company does not assume substantially all the risks and rewards of ownership are classified as operating leases and, except for property interest held under operating lease, the leased assets are not recognised on the statement of financial position. Property interest held under an operating lease, which is held to earn rental income or for capital appreciation or both, is classified as investment property and measured using fair value model.

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease. Contingent rentals are charged to profit or loss in the reporting period in which they are incurred.

Leasehold land which in substance is an operating lease is classified as prepaid lease payments.

# NOTES TO THE FINANCIAL STATEMENTS

## (Cont'd)

### 2. Significant accounting policies (Cont'd)

#### (f) Investment properties

##### Investment properties at cost

Investment properties are properties which are owned to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the investment property.

Freehold land has an unlimited useful life and therefore is not depreciated. Leasehold land is depreciated over the lease term and their useful lives of 60 years.

Depreciation of buildings is provided for on a straight-line basis to write off the cost of each asset to its residual value over the estimated useful life of 50 years.

An investment property is derecognised on its disposal, or when it is permanently withdrawn from use and no future economic benefits are expected from its disposal. The difference between the net disposal proceeds and the carrying amount is recognised in profit or loss in the period in which the item is derecognised.

#### (g) Inventories

Inventories are measured at the lower of cost and net realisable value.

The cost of inventories is measured based on weighted average cost formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of work-in-progress and finished goods, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

In the current financial year, the Group adopted the amendments to MFRS 116, *Property, Plant and Equipment (Annual Improvements 2009-2011 Cycle)* and classified spare parts as inventories unless the item of spare part is held for own use and expected to be used during more than one period in which it is classified as property, plant and equipment. In the previous financial years, all spare parts were classified as inventories. The change in accounting policy has been applied retrospectively. Nevertheless, there is no significant impact to the financial statements.

#### (h) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents are presented net of bank overdrafts.

# NOTES TO THE FINANCIAL STATEMENTS

## (Cont'd)

### 2. Significant accounting policies (Cont'd)

#### (i) Impairment

##### (i) Financial assets

All financial assets (except for financial assets categorised as fair value through profit or loss, investment in subsidiaries and investment in joint venture) are assessed at each reporting date whether there is any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset. Losses expected as a result of future events, no matter how likely, are not recognised. For an equity instrument, a significant or prolonged decline in the fair value below its cost is an objective evidence of impairment. If any such objective evidence exists, then the impairment loss of the financial asset is estimated.

An impairment loss in respect of loans and receivables is recognised in profit or loss and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account.

An impairment loss in respect of available-for-sale financial assets is recognised in profit or loss and is measured as the difference between the asset's acquisition cost (net of any principal repayment and amortisation) and the asset's current fair value, less any impairment loss previously recognised. Where a decline in the fair value of an available-for-sale financial asset has been recognised in the other comprehensive income, the cumulative loss in other comprehensive income is reclassified from equity to profit or loss.

An impairment loss in respect of unquoted equity instrument that is carried at cost is recognised in profit or loss and is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available-for-sale is not reversed through profit or loss.

If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed, to the extent that the asset's carrying amount does not exceed what the carrying amount would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in profit or loss.

##### (ii) Other assets

The carrying amounts of other assets (except for inventories and deferred tax asset) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, the recoverable amount is estimated each period at the same time.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets (known as cash-generating unit). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to a cash-generating unit or a group of cash-generating units that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

# NOTES TO THE FINANCIAL STATEMENTS

## (Cont'd)

### 2. Significant accounting policies (Cont'd)

#### (i) Impairment (Cont'd)

##### (ii) Other assets (Cont'd)

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit or the group of cash-generating units and then to reduce the carrying amount of the other assets in the cash-generating unit (or a group of cash-generating units) on a *pro rata* basis.

In respect of other assets, impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

#### (j) Equity instruments

Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently.

##### (i) Issue expenses

Costs directly attributable to issue of instruments classified as equity are recognised as a deduction from equity.

##### (ii) Repurchase, disposal and reissue of share capital

When share capital recognised as equity is repurchased, the amount of the consideration paid, including directly attributable costs, net of any tax effects, is recognised as a deduction from equity. Repurchased shares that are not subsequently cancelled are classified as treasury shares in the statement of changes in equity.

When treasury shares are sold or reissued subsequently, the difference between the sales consideration net of directly attributable costs and the carrying amount of the treasury shares is recognised in equity.

#### (k) Compound financial instruments

A compound financial instrument is a non-derivative financial instrument that contains both a liability and an equity component.

Compound financial instruments issued by the Group comprise redeemable convertible secured bonds that can be converted to share capital at the option of the holder, when the number of shares to be issued does not vary with changes in their fair value.

The liability component of a compound financial instrument is recognised initially at fair value of a similar liability that does not have an equity conversion option. The equity component is recognised initially at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

#### (k) Compound financial instruments (Cont'd)

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured subsequent to initial recognition.

Interest and losses and gains relating to the financial liability are recognised in profit or loss. On conversion, the financial liability is reclassified to equity; no gain or loss is recognised on conversion.

#### (l) Employee benefits

##### (i) Short term employee benefits

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short term cash bonus if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

##### (ii) Defined contribution plans

The Group's contributions to statutory pension funds are charged to profit or loss in the financial year to which they relate. Once the contributions have been paid, the Group has no further payment obligations.

##### (iii) Share-based payment transactions

The grant date fair value of share-based payment granted to employees is recognised as an employee expense, with corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The fair value of the employee share options is measured using a binomial lattice model. Measurement inputs include share price on measurement date, exercise price of the instrument, expected volatility (based on weighted average historic volatility adjusted for changes expected due to publicly available information), weighted average expected life of the instruments (based on historical experience and general option holder behaviour), expected dividends, and the risk-free interest rate (based on government bonds). Service and non-market performance conditions attached to the transactions are not taken into account in determining fair value.

### (m) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

### Contingent liabilities

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### (n) Revenue and other income

#### (i) Goods sold

Revenue from the sale of goods in the course of ordinary activities is measured at fair value of the consideration received or receivable, net of returns and allowances, trade discount, volume rebates and sales taxes. Revenue is recognised when persuasive evidence exists, that the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

#### (ii) Service income

Revenue is recognised when the services have been performed.

#### (iii) Dividend income

Dividend income is recognised in profit or loss on the date that the Group's or the Company's right to receive payment is established.

#### (iv) Interest income

Interest income is recognised as it accrues using the effective interest method in profit or loss except for interest income arising from temporary investment of borrowings taken specifically for the purpose of obtaining a qualifying asset which is accounted for in accordance with the accounting policy on borrowing costs.

#### (v) Rental income

Rental income related to rental of properties and scaffoldings are recognised over the period of tenancy or usage, as appropriate.

#### (vi) Management fees

Management fees are recognised when services are rendered.

### 2. Significant accounting policies (Cont'd)

#### (o) Borrowing costs

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

#### (p) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Unutilised reinvestment allowance and investment tax allowance, being tax incentives that is not a tax base of an asset, is recognised as a deferred tax asset to the extent that it is probable that the future taxable profits will be available against the unutilised tax incentive can be utilised.

#### (q) Earnings per ordinary share

The Group presents basic and diluted earnings per share data for its ordinary shares ("EPS").

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise warrants, ESOS and redeemable convertible secured bonds.

#### (r) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the chief operating decision maker, which in this case is the Executive Director and Group Operation Director of the Group, to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

#### (s) Fair value measurement

From 1 August 2013, the Group adopted MFRS 13, *Fair Value Measurement* which prescribed that fair value of an asset or a liability, except for share-based payment and lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In accordance with the transitional provision of MFRS 13, the Group applied the new fair value measurement guidance prospectively, and has not provided any comparative fair value information for new disclosures. The adoption of MFRS 13 has not significantly affected the measurements of the Group's assets or liabilities other than the additional disclosures.

### Policy on transfer between levels

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

### Level 1 fair value

Level 1 fair value is derived from quoted price (unadjusted) in active markets for identical investment properties that the entity can access at the measurement date.

### Level 2 fair value

Level 2 fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the investment property, either directly or indirectly.

Level 2 fair values of land and buildings have been generally derived using the sales comparison approach. Sales price of comparable properties in close proximity are adjusted for differences in key attributes such as property size. The most significant input into this valuation approach is price per square foot of comparable properties.

### Transfer between Level 1 and 2 fair values

There is no transfer between Level 1 and 2 fair values during the financial year.

### Level 3 fair value

Level 3 fair value is estimated using unobservable inputs for the investment property.

The Group's normal trade credit term ranges from 14 to 90 (2013: 14 to 90) days. Other credit terms are assessed and approved on a case-by-case basis.

The allowance for impairment loss in other receivables of the Group relate to the quantity discounts receivable from a supplier in prior years. In assessing the recoverability of these debts, the management has given due consideration to all pertinent information and development of the claims, including assessing the outcomes of the various discussions and negotiations with the supplier in the previous financial year. Management is of the opinion that the recoverability of quantity discounts receivable is uncertain and accordingly provided for impairment loss on the amounts.

### Amount due from subsidiary and joint venture (non-current)

The amount due from subsidiary is unsecured and subject to interest rate of 5% (2013: 5%) per annum. The amount due from joint venture is unsecured and subject to interest rates of 4.6% to 9.2% (2013: 4.6% to 9.2%) per annum. Both amounts due from subsidiary and joint venture are repayable in 2017.

### 12.1 Warrant reserves

The warrant reserves arose from the allocation of the proceeds received from the issuance of the warrants by reference to the fair value of the warrants and net of expenses incurred in relation to the rights issue in the previous financial year.

#### Warrants 2012/2017

In the previous financial year, the number of outstanding warrants issued pursuant to the rights issue of new ordinary shares was 88,536,425. During the financial year, 2,733 warrants were exercised and the number of warrants outstanding as at 31 July 2014 was 88,533,692.

The salient terms of the Warrants 2012/2017 are as follows:

- The Warrants can be exercised any time during the tenure of 5 years commencing from the date of issue of 10 January 2012 to 9 January 2017 ("Exercise Period"). Warrants not exercised during the Exercise Period will lapse and cease to be valid; and
- Each warrant entitles holder to subscribe for one new ordinary share in the Company at the exercise price of RM0.69 at any time during the Exercise Period.

### 12.2 Other reserves

#### 12.2.1 Translation reserves

The translation reserves comprise all foreign currency differences arising from the translation of the financial statements of foreign operations.

#### 12.2.2 Fair value reserves

The fair value reserves comprise the cumulative net change in the fair value of available-for-sale financial assets until the investments are derecognised or impaired.

### 12. Capital and reserves (Cont'd)

#### 12.2 Other reserves (Cont'd)

##### 12.2.3 Capital reserves

The capital reserves comprise the equity component of redeemable convertible secured bonds. It represents the residual amount of the convertible bonds after deducting the fair value of the liability component. The amount is presented net of transaction costs and deferred tax liabilities.

#### 12.3 Share option reserves

The share option reserve comprises the cumulative value of employee services received for the issue of share options. When the option is exercised, the amount from the share option reserve is transferred to share premium. When the share options expire, the amount from the share option reserve is transferred to retained earnings.

#### 12.4 Treasury shares

During the financial year, the Company repurchased 1,000 of its issued share capital from the open market. The average price paid for the shares repurchased was RM0.80 per share including transaction costs, and the repurchase transactions were financed by internally generated funds. The shares repurchased are held as treasury shares. As at 31 July 2014, a total of 5,481,000 buy-back shares were held as treasury shares and carried at cost.

### Security

- (a) The redeemable convertible bonds are secured by the first legal charge over property of a subsidiary with carrying amount of RM67,804,000 (2013: RM68,858,000) and the land and buildings of the Company with carrying amount of RM102,050,000 (2013: RM103,365,000).
- (b) The Company has extended corporate guarantees amounting to RM447,775,000 (2013: RM507,205,000) as at the reporting date to financial institutions for banking facilities granted to certain subsidiaries. The Directors have assessed the financial guarantee contracts and concluded that the financial impact of the guarantees is not material as the subsidiaries concerned are in positive financial standings to meet their obligations as and when they fall due.

### Redeemable convertible secured bonds ("the Bonds")

On 5 April 2012 ("Issue date"), the Company issued a 7-year RM147 million nominal value of 4.5% redeemable convertible secured bonds. The liability component of the Bonds is recognised in statements of financial position as follows:

	<b>Group and Company</b>	
	<b>2014</b>	<b>2013</b>

At 1 August	126,686	123,623
Accreted interest	3,271	3,063
At 31 July	129,957	126,686

The holder of the Bonds may on 5<sup>th</sup> anniversary of the Issue date (ie. 5 April 2017) require the Company to redeem all or part of the Bonds by giving no less than 90 days irrevocable prior written notice to the Company.

Unless previously redeemed, converted, purchased and cancelled, the Bonds shall be redeemed by the Company at its nominal value on the 7<sup>th</sup> anniversary of the Issue date (ie. 5 April 2019) ("Maturity date").

The Bonds are convertible into ordinary shares of RM0.50 each at the option of the holder at conversion price of RM0.70 at any time between issuance up to Maturity date.

The Bonds carry a coupon rate of 4.5% per annum on the nominal value payable semi-annually in arrears.

### 23. Operating segments

#### (a) Business Segments

For management purposes, the Group is organised into business units based on their products and services, and has four reportable operating segments as follows:

- (i) The trading segment is importers, exporters and general dealers in steel products, hardware and building materials;
- (ii) The manufacturing segment involved in manufacturing, renting and distributing of steel pipes, hollow sections, scaffolding equipment, accessories and other steel products;
- (iii) The property and investment segment involved in investment in and renting out property and investment holding; and
- (iv) The transportation segment involved in provision of transportation of goods by lorries.

Except as indicated above, no operating segment has been aggregated to form the above reportable operating segments.

Group income taxes are managed on a group basis and are not allocated to operating segments.

#### (b) Geographical Segments

No segmental information is provided on a geographical basis as the activities of the Group are carried out predominantly in Malaysia.

The Directors are of the opinion that all inter-segment transactions have been entered into in the normal course of business and have been established on terms and conditions that are not materially different from those obtainable in transactions with unrelated parties.

Performance is measured based on segment profit before tax, interest and depreciation as included in the internal management reports that are reviewed by the Executive Director and Group Operation Director. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

#### Segment assets

The total of segment asset is measured based on all assets (including goodwill) of a segment, as included in the internal management reports that are reviewed by the Executive Director and Group Operation Director. Segment total asset is used to measure the return of assets of each segment.

### 24. Financial instruments (Cont'd)

#### 24.3 Financial risk management

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

#### 24.4 Credit risk

Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's exposure to credit risk arises principally from its receivables from customers. The Company's exposure to credit risk arises principally from loans and advances to subsidiaries and joint venture and corporate guarantees given to banks for credit facilities granted to subsidiaries and joint venture.

##### Receivables

*Risk management objectives, policies and processes for managing the risk*

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

*Exposure to credit risk, credit quality and collateral*

As at the end of the reporting period, the maximum exposure to credit risk arising from receivables is represented by the carrying amounts in the statement of financial position.

Management has taken reasonable steps to ensure that receivables that are neither past due nor impaired are stated at their realisable values. A significant portion of these receivables are regular customers that have been transacting with the Group. The Group uses ageing analysis to monitor the credit quality of the receivables. Any receivables having significant balances past due more than 90 days, which are deemed to have higher credit risk, are monitored individually.

The exposure of credit risk for trade receivables as at the end of the reporting period by geographic region was:

	<b>Group</b>

	252,114	(691)	251,423

The movements in the allowance for impairment losses of trade receivables during the financial year were:

	Group	
	2014 RM'000	2013 RM'000
At 1 August	691	4,300
Impairment loss reversed	(2)	(23)
Impairment loss written off	-	(3,586)
At 31 July	689	691

The allowance account in respect of receivables is used to record impairment losses. Unless the Group is satisfied that recovery of the amount is possible, the amount considered irrecoverable is written off against the receivable directly.

#### 24.4 Credit risk (Cont'd)

##### **Available-for-sale financial assets**

###### *Risk management objectives, policies and processes for managing the risk*

Investments in available-for-sale financial assets are allowed only in liquid securities and only with counterparties that have a credit rating equal to or better than the Group. Transactions involving derivative financial instruments are with approved financial institutions.

###### *Exposure to credit risk, credit quality and collateral*

The maximum exposure to credit risk is represented by the carrying amounts in the statement of financial position.

In view of the sound credit rating of counterparties, management does not expect any counterparty to fail to meet its obligations. The Group does not have overdue investments that have not been impaired.

The available-for-sale financial assets are unsecured.

###### *Impairment losses*

As at the end of the reporting period, there was no indication that the investments and other financial assets are not recoverable.

##### **Financial guarantees**

###### *Risk management objectives, policies and processes for managing the risk*

The Company provides unsecured corporate guarantees to banks in respect of banking facilities granted to certain subsidiaries. The Company monitors on an ongoing basis the results and repayments made by the subsidiaries.

###### *Exposure to credit risk, credit quality and collateral*

The maximum exposure to credit risk amounts to RM447,775,000 (2013: RM507,205,000) representing the outstanding banking facilities of the subsidiaries as at the end of the reporting period.

As at the end of the reporting period, there was no indication that any subsidiary would default on repayment.

The financial guarantees have not been recognised since the fair value on initial recognition was not material.

### 24.4 Credit risk (Cont'd)

#### Inter company balances

*Risk management objectives, policies and processes for managing the risk*

The Company provides unsecured loans and advances to subsidiaries and joint venture. The Company monitors the results of these entities regularly.

*Exposure to credit risk, credit quality and collateral*

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

*Impairment losses*

As at the end of the reporting period, there was no indication that the loans and advances to the subsidiaries and joint venture are not recoverable.

### 24.5 Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's exposure to liquidity risk arises principally from its various payables, loans and borrowings.

The Group maintains a level of cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.

*Maturity analysis*

The table below summarises the maturity profile of the Group's and the Company's financial liabilities as at the end of the reporting period based on undiscounted contractual payments:

Group	Carrying amount RM'000	Contractual interest rate coupon	Contractual cash flows RM'000	Under 1 year RM'000	1-2 years RM'000	2-5 years RM'000	More than 5 years RM'000

### 24.6 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other prices that will affect the Group's financial position or cash flows.

#### 24.6.1 Currency risk

The Group is exposed to foreign currency risk on sales and cash and cash equivalents that are denominated in a currency other than the respective functional currencies of Group entities. The currencies giving rise to this risk are primarily U.S. Dollar (USD) and Singapore Dollar (SGD).

*Risk management objectives, policies and processes for managing the risk*

Foreign exchange exposures in transactional currencies other than functional currencies of the operating entities are kept to an acceptable level. Material foreign currency transaction exposures are hedged, mainly with derivative financial instruments such as forward foreign exchange contracts. Most of the forward exchange contracts have maturities of less than one year after the end of the reporting period.

*Exposure to foreign currency risk*

The Group's exposure to foreign currency (a currency which is other than the currencies of the Group entities) risk, based on carrying amounts as at the end of the reporting period was:

Group	Denominated in	
	USD RM'000	SGD RM'000
<b>2014</b>

### 24. Financial instruments (Cont'd)

#### 24.6 Market risk (Cont'd)

##### 24.6.1 Currency risk (Cont'd)

###### *Currency risk sensitivity analysis*

Foreign currency risk of the Group entities mainly arises from transactions dealing in SGD and USD. The exposure to other currency is not material and hence sensitivity analysis is not presented for other currency.

A 5% and 5% (2013: 5% and 5%) strengthening of the SGD and USD respectively against the functional currencies of the Group entities at the end of the reporting period would have increased/(decreased) post-tax profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remained constant and ignores any impact of forecasted sales and purchases.

Group	Profit or loss	
	2014 RM'000	2013 RM'000
SGD	1,060	1,138
USD	918	(3,355)

A 5% and 5% (2013: 5% and 5%) weakening of the SGD and USD respectively against the above currency at the end of the reporting period would have had equal but opposite effect on the above currency to the amounts shown above, on the basis that all other variables remained constant.

##### 24.6.2 Interest rate risk

The Group's fixed rate borrowings are exposed to a risk of change in their fair value due to changes in interest rates. The Group's variable rate borrowings are exposed to a risk of change in cash flows due to changes in interest rates. Investments in equity securities, available-for sale financial assets and short term receivables and payables are not significantly exposed to interest rate risk.

###### *Risk management objectives, policies and processes for managing the risk*

The Group manages its interest rate exposure by maintaining fixed and floating rate borrowings. The Group reviews its debts portfolio, taking into account the investment holding period and nature of its assets.

#### 24.6.2 Interest rate risk (Cont'd)

##### *Exposure to interest rate risk*

The interest rate profile of the Group's and the Company's significant interest-bearing financial instruments, based on carrying amounts as at the end of the reporting period was:

	<b>Group</b>		<b>Company</b>	
	<b>2014</b>	<b>2013</b>	<b>2014</b>	<b>2013</b>

<b>Floating rate instruments</b>				
Bank overdrafts	1,736	-	-	-
	577,732	633,891	159,957	126,686

##### *Interest rate risk sensitivity analysis*

##### *Fair value sensitivity analysis for fixed rate instruments*

The Group and the Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Group and the Company does not designate derivatives as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

##### *Cash flow sensitivity analysis for variable rate instruments*

The exposure to interest rate risk arising from floating rate instruments is not material, and hence, sensitivity analysis is not presented.

### 24. Financial instruments (Cont'd)

#### 24.6 Market risk (Cont'd)

##### 24.6.3 Other price risk

Equity price risk arises from the Group's investments in quoted equity securities. The quoted equity securities is listed on the Bursa Malaysia Securities Berhad. The instrument is classified as available-for-sale investments.

*Risk management objectives, policies and processes for managing the risk*

Management of the Group monitors the equity investments on an individual basis and all buy and sell decisions are approved by the management.

*Equity price risk sensitivity analysis*

At the reporting date, if the share price had been 5% (2013: 5%) higher/lower, with all other variables held constant, the Group's other reserve in equity would have been RM115,200 (2013: RM155,000) higher/lower, arising as a result of an increase/decrease in the fair value of equity instruments classified as available-for-sale.

##### **Investment in unit trust funds**

The Group's investment in unit trust funds in licensed financial institution within Malaysia is a fixed income fund which provides regular income stream and stable investment returns. The Group invested in the fund for cash management purpose. The exposure to the equity risk is not material and hence sensitivity analysis is not presented.

#### 24.7 Fair value information

The carrying amounts of cash and cash equivalents, short term receivables and payables and short term borrowings approximate fair values due to the relatively short term nature of these financial instruments.

It was not practicable to estimate the fair value of the Group's and the Company's investment in unquoted shares due to the lack of comparable quoted market prices and the inability to estimate fair value without incurring excessive costs.

### 24. Financial instruments (Cont'd)

#### 24.7 Fair value information (Cont'd)

##### Policy on transfer between levels

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

##### Level 1 fair value

Level 1 fair value is derived from quoted price (unadjusted) in active markets for identical financial assets or liabilities that the entity can access at the measurement date.

##### Level 2 fair value

Level 2 fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the financial assets or liabilities, either directly or indirectly.

##### Transfers between Level 1 and Level 2 fair values

There has been no transfer between Level 1 and 2 fair values during the financial year. (2013: no transfer in either directions)

##### Level 3 fair value

Level 3 fair value is estimated using unobservable inputs for the financial assets and liabilities.

##### *Non-derivative financial liabilities*

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the end of the reporting period. In respect of the liability component of convertible notes, the market rate of interest is determined by reference to similar liabilities that do not have a conversion option.

### 25. Capital management

The Group's objectives when managing capital is to maintain a strong capital base and safeguard the Group's ability to continue as a going concern, so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Directors monitor and are determined to maintain an optimal debt-to-equity ratio that complies with bond covenants and regulatory requirements.

### 25. Capital management (Cont'd)

During 2014, the Group's strategy, which was unchanged from 2013, was to maintain the debt-to-equity ratio of less than 1.0. The debt-to-equity ratios were as follows:

	Note	Group 2014 RM'000	2013 RM'000
Loans and borrowings	13	577,732	633,891
Less: Cash and cash equivalents	11	(56,677)	(51,449)
Less: Available-for-sale financial assets - current	7	(27,879)	(56,759)
Net debt		493,176	525,683
Total equity		952,633	909,013
Debt-to-equity ratios		0.52	0.58

There were no changes in the Group's approach to capital management during the financial year.

Under the requirement of Bursa Malaysia Practice Note No. 17/2005, the Company is required to maintain a consolidated shareholders' equity equal to or not less than the 25 percent of the issued and paid-up capital (excluding treasury shares) and such shareholders' equity is not less than RM40 million. The Company has complied with this requirement.

The Group is also required to maintain minimum debt service cover ratio of 1.5 and debt-to-equity ratio of less than 1.0 to comply with bond covenant, failing which, the bank may call it an event of default. The Group has complied with the requirement.

### 26. Operating leases

## 30. Employee benefit

### Share option programme (equity-settled)

- (a) On 19 April 2013, the Company has granted 48,800,000 of share options to eligible Directors and employees under Employee Share Option Scheme ("ESOS"), approved by the shareholders of the Company on 23 November 2011. On 10 January 2014, the Company further granted 11,020,000 of share options on similar term (except for exercise price) to eligible Directors and employees.

The salient terms of the ESOS are as follows:

- (i) Eligible Director named in the register of directors of the Group or an employee who is a confirmed full time employee of the Group and must attained the age of eighteen (18) years;
- (ii) For employee other than Directors, he must have been confirmed and must have served the Group on a continuous basis for a period of not less than one year on the 12 April 2012 ("Effective Date").
- (iii) The aggregate number of shares to be issued under the ESOS shall not exceed 10% of the total issued and paid-up ordinary share capital of the Company;
- (iv) The Scheme shall be in force for a period of five (5) years from the Effective Date and may be extended or renewed (as the case may be) for a further period of five years, at the sole and absolute discretion of the Board upon the recommendation by the ESOS Committee, provided always that the initial Scheme period stipulated above and such extension of the Scheme made pursuant to these ESOS By-laws shall not in aggregate exceed a duration of ten (10) years from the Effective Date;
- (v) The option price shall not be at a discount of more than 10% (or such discount as the relevant authorities shall permit) from the 5-day weighted average market price of the shares of the Company preceding the date of offer and shall in no event be less than par value of the shares of the Company of RM0.50;
- (vi) An option holder may, in a particular year, exercise up to such maximum number of shares in the offer letter at vesting date at 2 January 2014, 2015, 2016 and 2017 subject to the yearly performance targets set by the Board of Directors of the Company;
- (vii) The option granted to eligible Director/employee will lapse when they are no longer in employment of the Group.

# INDEPENDENT AUDITORS' REPORT

## to the members of Hiap Teck Venture Berhad

(Company No. 421340-U)  
(Incorporated in Malaysia)

### Report on the Financial Statements

We have audited the financial statements of Hiap Teck Venture Berhad, which comprise the statements of financial position as at 31 July 2014 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, changes in equity and cash flows of the Group and of the Company for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 49 to 115.

#### *Directors' Responsibility for the Financial Statements*

The Directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Company as of 31 July 2014 and of their financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

### Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the financial statements and the auditors' report of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 5 to the financial statements.
- (c) We are satisfied that the accounts of the subsidiaries that have been consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- (d) The audit reports on the accounts of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Act.

## (Cont'd)

### Notes:

#### A. Appointment of Proxy

1. A member entitled to attend and vote at the Meeting is entitled to appoint a Proxy or Proxies to attend and vote on his (her) behalf. A Proxy may but need not be a member of the Company and the provisions of Section 149(1)(b) of the Companies Act, 1965 shall not apply to the Company.
2. Where a member appoints two (2) or more Proxies, the appointment shall be invalid unless he (she) specifies the proportion of his (her) holdings to be represented by each Proxy.
3. The Form of Proxy shall be signed by the appointer or of his (her) attorney duly authorised in writing or, if the appointer is a corporation, must be executed under its common seal or by its duly authorised attorney or officer.
4. The instrument appointing a Proxy must be deposited at the Registered Office of the Company at Lot 6096, Jalan Haji Abdul Manan, Batu 5½, Off Jalan Meru, 41050 Klang, Selangor Darul Ehsan not less than forty-eight (48) hours before the time for the Meeting or at any adjournment thereof.
5. A proxy appointed to attend and vote at a meeting of a company shall have the same right as the member to speak at the meeting.
6. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account ("omnibus account"), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each omnibus account it holds.

#### B. Audited Financial Statements for the Financial Year ended 31 July 2014

The Audited Financial Statements in Agenda 1 are meant for discussion only as the approval of shareholders is not required pursuant to the provision of Section 169(1) of the Companies Act, 1965. Hence, this Agenda is not put forward for voting by the shareholders of the Company.

### EXPLANATORY NOTES ON SPECIAL BUSINESS OF THE AGENDA

#### (a) Resolution pursuant to the Authority to Allot Shares pursuant to Section 132D of the Companies Act, 1965

The proposed Resolution 8 under item 7.1 of the Agenda, if passed, will empower the Directors of the Company, from the date of the above Annual General Meeting, with the authority to allot and issue shares in the Company up to an amount not exceeding in total 10% of the issued capital of the Company (excluding treasury shares) for such purposes as the Directors consider would be in the best interest of the Company. This authority, unless revoked or varied at a general meeting, will expire at the next Annual General Meeting.

The general mandate which seeks to grant authority to Directors to allot and issue shares is a renewal of the mandate that was approved by the shareholders at the Seventeenth Annual General Meeting held on 17 December 2013. The renewal of the general mandate is to provide flexibility to the Company to issue new shares without the need to convene a separate general meeting to obtain shareholders' approval so as to avoid incurring additional cost and time. The purpose of this general mandate is for possible fund raising exercises including but not limited to placement of shares for the purpose of funding current and/or future investment projects, working capital and/or acquisitions.
